ABOUT

Age: 29
City: Athens
Timezone: UTC+2 (overlap full)

LANGUAGES

Greek — native
English — fluent

COURSES AND CERTIFICATES

DeepLearning.AI — Generative AI with LLMs
CKA (Kubernetes) — basic

SCHEDULE

Full-time, remote. Full overlap with CET.

Aaron Mercer

ML/LLM engineer

Experience

- 2022–present — ML engineer, SaaS CloudBot. RAG assistant in production; Weaviate, eval, CI/CD, monitoring.
- 2019–2022 — Data Scientist. ML models in production.

Education

Athens Polytechnic, Computer Science (2019).

Stack and skills

Python, LLM, RAG, Weaviate, eval, Docker, Kubernetes, CI/CD.

Projects

- Production RAG assistant with a reproducible MLOps pipeline.
- Automated model deployment and monitoring.

About me

An engineer with an MLOps bias. I love reproducibility: any result should be rebuildable with a single command.
