Daniel Osborne

Senior ML/LLM engineer

Experience

- 2023–present — Lead ML, fintech PayFlow. LLM+RAG support assistant in production for 2 years, ~1.5M requests/month; cut the average operator response time by 40%, built the eval set.
- 2019–2023 — ML engineer, e-commerce MarketHub. Search and recommendations in production.
- 2017–2019 — Backend developer (Python).

Education

TU Berlin, MSc in applied mathematics and computer science (2017).

Stack and skills

Python, LLM API (function calling), RAG (own pipeline), pgvector, eval (ragas), FastAPI, Docker, CI/CD.

Projects

- Support assistant in production (2 years in operation).
- Internal answer-quality eval framework; contributions to llama-index.

About me

I like taking models all the way to production and measuring the result. A demo is not a result; the result is a system that closes the job every day.
