Full-time, remote.

Sabina Reeves

LLM engineer

Experience

- 2023–present — LLM developer, ITSolutions. RAG and function calling; one assistant pilot (never taken to production).
- 2021–2023 — Python developer.

Education

Yerevan State University, Computer Science (2021).

Stack and skills

Python, LLM, RAG, function calling, FastAPI.

Projects

- RAG assistant — pilot (never shipped to production).
- Several LLM integrations into internal services.

About me

I am growing in LLM and have pilot experience. I want a team where I will take an assistant to production and learn to do it reliably.
